

## Occhio Cosmico

**Yuhan Zhu** | 50 cm x 70 cm, oil on canvas

Black holes are the only ones in the universe that cannot reflect light. As a neophyte, you absorb all the light, mysterious and deep, but it can turn out to be a trap. But masking is so beautiful and delicate that it can ward off danger.

Yuhan Zhu is a junior artist who exhibited for the first time in the Accademia di Belle Arti di Brera–Milano and his artwork was selected to represent Italy in the Miradas International artwork contest.

*Description by Jorge L. Alió*

The "Miradas" competition was created by Jorge Alió, Journal of Refractive Surgery Editorial Board Member, and his wife, Maria Lopez, in 1998 with the intention of using artistic sensibility to bring society's attention to the phenomenon of sight, vision, and blindness. "Miradas," which means glances, is a contest in which artwork is sent from Spain and many international countries from the four continents for the Miradas International Artwork Competition every two years. Each cover of the Journal of Refractive Surgery features paintings that were submitted to this competition. "**Miradas**" is sponsored by **Biotech, Ireland**.
