From Inside

José Cerezo

The artist displays an older woman who shows introspection. The glance is not toward the exterior but rather inside the person. The feeling of this interior projection of the glance creates an environment of transmission, embracing memories and the pleasure of lost moments of the past.

The artist José Cerezo is a young but well established artist from Alicante. This artwork participated in Miradas 2023 and was selected for the exhibition that year.

Description by Jorge L. Alió

The "Miradas" competition was created by Jorge Alió, *Journal of Refractive Surgery* Editorial Board Member, and his wife, Maria Lopez, in 1998 with the intention of using artistic sensibility to bring society's attention to the phenomenon of sight, vision, and blindness. "Miradas," which means glances, is a contest in which artwork is sent from Spain and many international countries from the four continents for the Miradas International Artwork Competition every two years. Each issue of the *Journal of Refractive Surgery* features paintings that were submitted to this competition. **"Miradas" is sponsored by Biotech, Ireland.** For more information, contact www.fundacionalio.com
